Frequently Asking Questions & Answers Related To Online Training & Offline Training

“INDIAN GOLD INSTITUTE”

1- Can Online Training be learned to test the purity of sensitive metals like Gold ?

Yes it is absolutely possible,

More than 16 such traditional, modern and scientific methods have been explained through videos and written notes in this prescribed course made on the basis of years of experience, by which any common person can easily assess the purity of gold.

2- How is it possible to identify without practical and without color and contact of gold ?

Accurate information about this can be obtained through the video and course given in the course! Gold is being given such a color by the various types of alloy he mixer available in the market, seeing which we cannot estimate the purity of gold according to the color only! But through the techniques explained in the training, we can accurately assess the purity of gold.

3- What is the guarantee that the employment of such skillful man power cannot be affected by the different types of machines available in the market which give 100% guarantee of purity assessment of gold?

All types of machines available in the market which give 100% guarantee of estimation of gold, work on working style based on some scientific principle !But on the basis of long time experience, we can say with full responsibility that it is not possible to assess the different types of gold jewelry available in the market in any one traditional, modern and scientific way! For this the market will always need skilled and experienced man power!
